Dear Miss Bardsley,

RE: Congratulations for National Physics Competition Success

I am writing to you to congratulate your school and four students on their success in 'The Eureka's' science competition.

I was made aware that, in May 2022, year 8 pupils at Avanti Fields School entered 'The Eureka's', a national science competition organised by the Institute of Physics, which challenges young people to 'see physics differently.' I understand that the challenge invited students to explore the question: 'What is the point of physics?', and thanks to their imaginary effort, a group of four girls from your school were named as this year's winners.

I was delighted to learn that the team, consisting of Anaiya Dattani, Dhariti Raythathatha, Prarthana Shukla and Serena Varia, baked a cake and decorated it to resemble the anatomy of a human ear. It is very impressive that, in order to complete the project, which was entitled 'Frosting Physics', the four students researched the physics of sound waves and how physics relates to the ear and received a £1000 prize for the school.

This success is a testament both to the talent and hard work of Anaiya, Dhariti, Prarthana and Serena, as well as the positive environment at Avanti Fields which promoted this competition.

I congratulate the four students for their success, as well as everyone at Avanti Fields for facilitating such rewarding extracurricular activities.

Yours sincerely,

Claudia Webbe MP
