RE: Parking at drop-off and collection

Dear families,

I am writing to urge families not to park on outside the school gates, particularly immediately outside the school car park. It is unfortunate that since my message in the bulletin on Friday, there have been numerous incidents of cars and vans continuing to park on pavements, blocking driveways and parking illegally on double yellow lines.

We must ensure all children can arrive to school safely each day, by walking on clear pavements and roads that are clear to cross.

A group of residents have collectively written to me now on two occasions to ask that families improve parking as this is causing an increasingly unsafe area during drop-off and collection times. As our neighbours, they have been very gracious in their requests. I ask all families to please act immediately by parking legally away from the school gates to avoid any bad feeling between the school and our local community.

Thanks very much to the many families who have already taken action to park away from congested areas and keep our pupils safe so they can enter school happily each morning.

If you have any questions, please get in contact through the usual channels.

Yours Faithfully,

Ashley Milum
Principal
