# Part A: Pupil premium strategy plan

## Statement of intent

At Avanti Gardens School, our approach to supporting those pupils in receipt of pupil premium centres around three principles of support:

- **Excellent teaching for all pupils**
- **Wider Strategies to support**
- **Targeted academic support**
- Our approach to support all disadvantage pupils centres around two key principles.
- **Excellence** - In terms of providing an outstanding support package for all pupils regardless of prior attainment or current performance.
- **Equity** - In terms of 'levelling the playing field' for disadvantaged pupils so they have the same opportunities, experiences, support and aspirations as their peers.

This strategy serves as the roadmap to achieving these aims and for supporting all pupils in receipt of pupil premium.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<b>Lack of historic exposure to the national curriculum</b> (Avanti Gardens School and the majority of the current cohort attended the now closed Steiner Academy Bristol wherein there was no formal teaching until the age of 7 and no evidence of coherent or challenging curriculum in place)
2	<b>Lost Learning time due to Covid-19</b> and its wider implications on schooling.
3	<b>Reading Proficiency</b> - Disadvantaged pupils are less likely to access books and read regularly. Levels of reading are below the national average and not in line with non-PP peers.
4	<b>Gaps in mathematical understanding</b> – Due to previous varying teaching proficiency levels and the lack of historic input and Covid 19, some pupils have significant gaps in their learning.
5	<b>Parental Engagement</b> – Where not evident, this hinders the ability of the school to support the pupil's continued learning at home.
6	<b>Poor attendance</b> – At AGS disadvantaged pupils attend school less regularly than non- disadvantaged pupils with a higher proportion of persistent absentees.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

## Part B: Review of outcomes in the previous academic year

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

#### Review: last year's aims and outcomes

Aim	Outcome
Development of high-quality educational resources	Through the purchase of hard and online resources, our curriculum offer has supported pupil accessing a diverse and rich learning experience. Additional resources to support the development of specific subject areas and the learning environment have also supported all pupils, including those with additional needs.
To provide emotional/wellbeing support to disadvantaged pupils	Staff identified PP pupils who would benefit from 1-1 therapy sessions with Leading Lights – all sessions were highly praised by pupils and improved attendance as mentoring was offered on Monday mornings. Thrive room set up and whole school Mood Monster check in has enabled a consistent approach to help develop resilience in our children. For 2021-22, our approach now includes the specific designation of a learning mentor who work 1:1 with pupils on emotional wellbeing.
Enrichment	Although hindered and constrained by the necessary Covid-19 restrictions, we have been able to expand our enrichment offer, expanding our provision to include wraparound morning care, breakfast club, peripatetic lessons for music and a wide-range of after-school clubs. For 2021-22, our PP children will have end of year trips paid for.
