

For the Easter Holidays, we would like the children to get creative with recycled materials! They have a choice of making either a crown or a banner - or both!

An Easter Crown

You've heard of Easter bonnets and hats, but what about crowns?

Design an Easter themed crown using any materials you already have at home. You could use cereal boxes, card, or paper. You could even use an old hat!

Once you have created your crown, write a short description on how you made it. Tell us about the materials you used, how long it took and who helped you.

Here is an example:

An Easter Banner

Using recycled materials, paper or anything you want, create your own Easter themed banner! Think about all of the things related to Easter and how you can put them into your design. It does not have to be a repeated pattern. Get creative!

Once you have created your banner, write a short description on how you made it. Tell us about the materials you used, how long it took and who helped you.

Here is an example:
