

Airplane

Today we will be learning about paper airplanes and will be doing an activity at the end of the lesson .

Activity time!!!

Which paper airplane will fly the farthest . let's have a look .

Prediction :

I predict that the bigger airplane will fly the furthest .

Fair test :

Same length , same floor , same timing and same material .

Results:

Turns out that the middle height airplane flew the furthest .

Here is a picture of an airplanes :
