

# Let's go on Safari!

Today we will be...

Finding out about the animals of Kenya.

We have arrived in Kenya! We flew here in an aeroplane and are now ready to go with our safari ranger. What animals do you think you might see?

What animal  
is this?

Back

Next

This is a rhinoceros although they are commonly called rhinos for short. Rhinos are herbivores which means they only eat plants.

Did you know that rhino horns are actually made of hair?

These are zebras. Zebras have distinctive stripy coats. Zebras are herbivores who eat grass. They are often hunted by lions, leopards, hyenas and other animals.

Did you know that no two zebras' stripes are the same? They are as individual as fingerprints.

All animals need different things. Some like to live near trees so they can eat the leaves or hide in the branches.

Other animals need to live in or near water so they can get the food they need or stay cool when it is hot.

This is a gazelle.

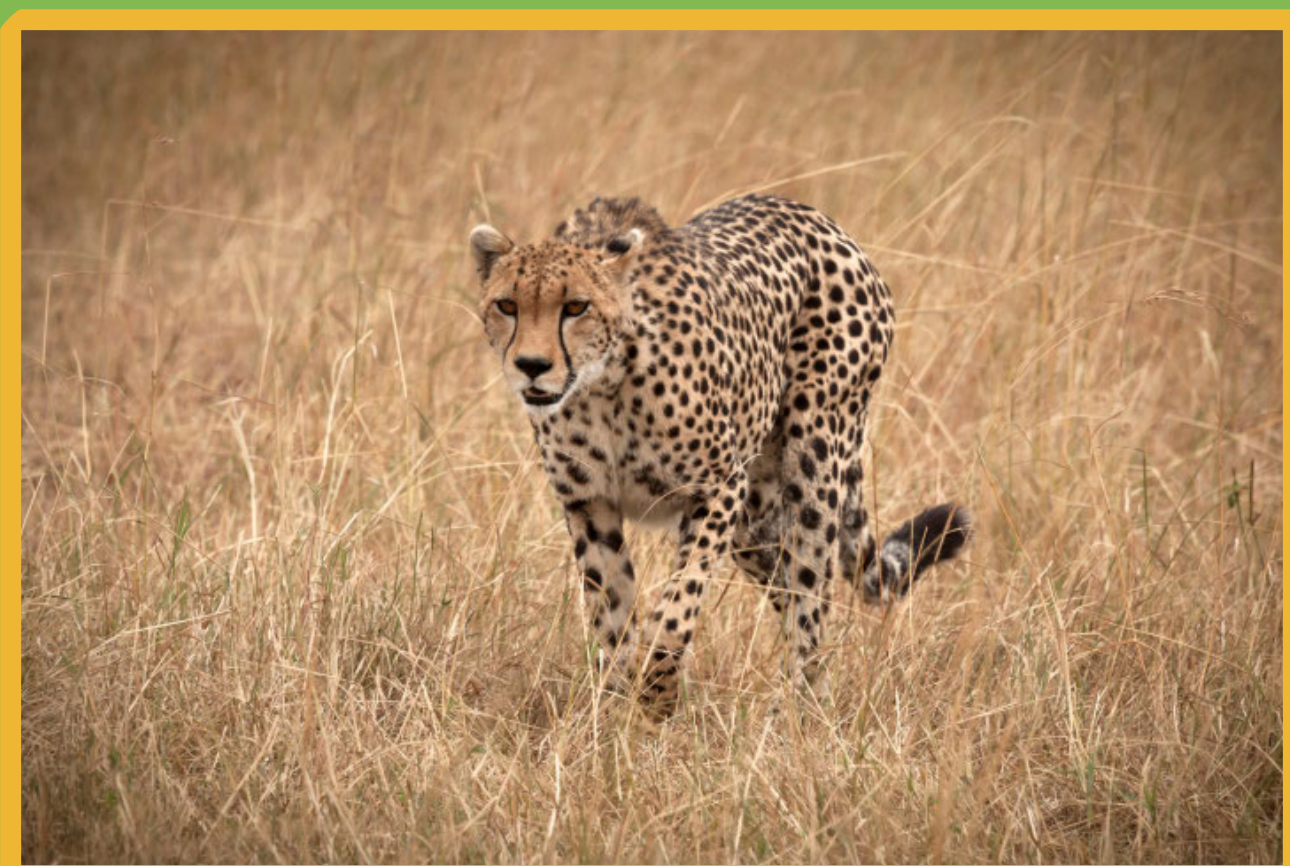

This is a hippo.

Where do you think these animals would like to live? What do they need?

This is a vulture.

This is a cheetah.

Have you seen any of these animals in real life? Where did you see them? What were they like?
