

Year 4 Topic Homework

In preparation for recycling week the following week, I would like you to interview your family members about their experience with recycling. You can record it however you want, for example, you can record your interview, you can take pictures, you can create a script with your responses or just write up a paragraph summarising the key points. Make it as exciting as you want!

Some questions might include:

- 1) Did you recycle when you were younger?*
- 2) Did you do anything at home that helped reduce waste?*
- 3) Did you have different bins for recycling*
- 4) Did you care about recycling when you were younger?*
- 5) Do you think it is important to recycle now? Why?*
- 6) What do you think has changed about recycling in the past and present?*
