

# Focus on... Music

#3

## On this day...

On this day in 1983, Michael Jackson's song 'Just Beat It' reached number one for the first of three weeks.

What a motivational song to encourage us during this pandemic. Just beat it!

## Did you know...

The first musical instrument used by humans was the voice. The human voice can make many different kinds of sounds. The larynx (voice box) is like a wind instrument.

## Go explore...

Have a go at creating your own music using your body and your voice as the instrument. Follow singer and songwriter **Emily Barden** from Musicmark and create your own family band. Don't forget to add your own finishing touches and share!
