

Focus on... PSHE

#19

On this day...

each year, The International Day for Biological Diversity is celebrated, dedicated to raising global awareness about the importance of protecting biological resources and the global biodiversity that shapes our environment.

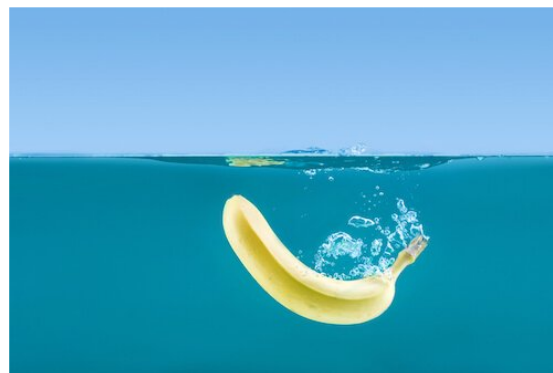

Did you know...

Dolphins are incredibly social and easily make friends with other dolphins. In fact, they are said to create several 'social networks'.

Go explore...

Which three fruits can float when put in water?

Picture this...

Horses and cows sleep standing up!
