

Focus on... Science

#41

On this day in...

1961, Lee de Forest, an American inventor, died. He invented the Audion vacuum tube, which made possible live radio broadcasting and became the key component of all radio, telephone, radar, television and computer systems before the invention of the transistor in 1947.

Did you know...

that 85% of plant life is found in the ocean?

Go explore...

How do aeroplanes stay in the air?

Picture this...

What if you had teeth like a snake?
