

Focus on... Computing

#57

On this day in...

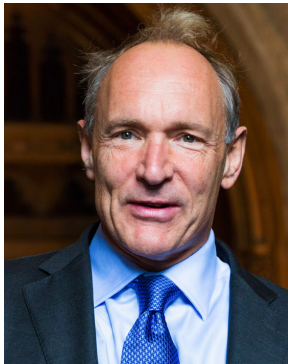

2000, Microsoft launched Windows ME. The Millennium Edition was the last of the operating systems of the Windows 9x series.

Did you know...

An ongoing study into the use of robots in care homes was given approval just last week as they were found to improve people's mental health and wellbeing. The robot (named 'Pepper') used in the trial, can engage in, and keep up a conversation; she can also learn about people's habits and tastes.

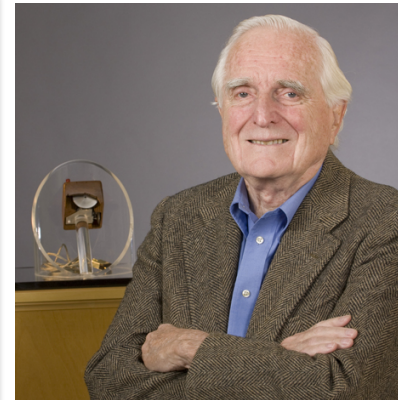

Go explore...

Who is this important person in the world of computing? See if you can find out and explore his important contribution to the digital world!

T___ B___-L___

Picture this...

Doug Engelbart invented the first computer mouse in around 1964 which was made of wood!
