

Focus on... Geography

#69

On this day...

in 1878, the great flood hit New Zealand's South Island.

Did you know...

The longest place name on the planet is 85 letters long.

Go explore...

Can you find out what the oldest active volcano on Earth is?

Picture this...

As North America and South America move more westward, the Pacific Ocean is shrinking. Every year, Asia and North America get closer and closer as the Pacific is reduced by two to three centimetres.
