

PE and Sports Premium Report for Primary Schools

Krishna Avanti Primary School, Leicester

October 2020

School's PE and Sport Strategy

The last academic year was a very difficult one with schools looking down at the end of March. Here at Krishna Avanti Primary School we understand the enormous benefits of physical education and sport. In times such as those we are living in now, Covid19 is having a detrimental effect on the mental health and well-being of so many people and we are determined to ensure that our children (and staff and parents) are supported.

Physical education and sport instrumental part in our support for our community. Despite the global pandemic, we will continue to offer as much PE and sport that is practically and safely possible. We have cleaners on site all day to clean areas so that the hall can be used for classes. The timetables have been adjusted to allow cleaning time between physical education lessons. Every teacher and teaching assistant is kindly offering a class club, some of which involve physically activity or sport.

We strive to help all children lead a fulfilling lifestyle. PE and sport is vital as we help all children to be fit and healthy; able to take a full and active part in life; and develop their skills of communication, teamwork, resilience and collaboration. We want children to have a wide network of friends and be able to take part in new ventures without hesitation.

An instrumental part of the strategy involves up-skilling our teachers to have both the confidence and competence to teach physical education. By providing excellent provision of physical education and sport our children will have increased self-esteem and confidence and recognise that their skills and talents are something to be celebrated - all children have something that they can truly celebrate. This will lead into the children being more confident in areas they were less confident in and have the resilience and determination to have a go and succeed.

By increasing the number of opportunities for children they will learn and further improve their academic achievements. We continue to find different ways to do this in these difficult times. Wherever possible we will offer a wide range of activities so that all children have an opportunity to find or develop further, something that they can enjoy and can develop in.

Planned provision for 2020 to 2021

The total amount received by the school for Sports Funding is: £19,600.00

The school will provide further funding from the school's budget: £7,220.00
