

Focus on... Music

#127

On this day...

in 1966, The Rolling Stones's '19th Nervous Breakdown' was released in the U.K.

Did you know...

Music, classical in particular, can help make plants grow faster.

Go explore...

Have you ever wondered how music was invented? One popular story from the Middle Ages credits the Greek philosopher, Pythagoras, as the inventor of music.

Picture this...

When we sing, sound comes out of our mouths at approximately 75 miles per hour. It is 1/2200 second, from the time that the sound is made until it exits your mouth.
