

# Focus on... Mathematics

#156

On this day...

in 1603, Queen Elizabeth I died aged 69.

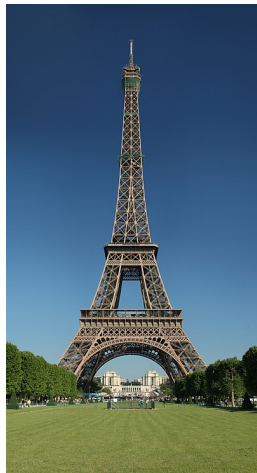

Did you know...

Six is the smallest perfect number. A perfect number is a positive integer that is equal to the sum of its positive divisors. E.g.  $1 + 2 + 3 = 6$ .

Go explore...

How many chocolates would you need to make a stack as high as the Eiffel Tower? How about a line a mile long?

Picture this...

What comes next in the sequence?
