

Focus on... Mathematics

#188

On this day....

in 1966, Guyana gained its independence from Britain.

Fun Fact....

Multiplying ones always gives you palindromic numbers

If you multiply $111,111,111 \times 111,111,111$ you get $12,345,678,987,654,321$ - a palindrome number that reads the same forwards or backwards. And that works all the way back down to 11×11 (121) or just 1×1 (1).

Go Explore....

CAN YOU SOLVE THIS?

 x  x  = 16
 x  x  = 27
 x  = 12
 +  x  = ?
