

Focus on... Design Technology

#212

On this day...

in 1903, Karl Maybach, a German engineer who designed engines was born. Karl designed engines for aircrafts, rails, ships, submarines and tanks.

Did you know...

Metals are primarily shiny, hard solids that are good conductors of heat and electricity. However, there are exceptions. For example, gold is very soft and mercury is a liquid.

Go explore...

What are the benefits of eating dark chocolate?

Picture this...

Wood was the first drawing material. Wood, in the form of charcoal, was the first artistic medium. An example of cave art, using charred wood, in France dates back 13,000 years.
