

Focus on... Computing

#215

On this day...

On 6th September 1997 The USS Grace Murray Hopper was commissioned by the US Navy in San Francisco. She helped program the Harvard Mark I and II and developed the first compiler.

Did you know...

You would think the invention of the radio would be a big deal, but it took 38 years for the radio to reach an audience of 50 million. Meanwhile, the Apple iPod only took 3 years to reach the same milestone!

Go explore...

All Purple Mash student accounts have now been transferred to their new classes. Be sure to login and try the new features and user interface!

Picture this...
