

Focus on... Mathematics

On this day...

In 1988, the space shuttle Discovery was launched, marking a resumption of NASA's space shuttle programme, which had been suspended following the Challenger explosion in 1986.

Did you know...

One grain of wheat can produce eight or more heads with over 40 seeds per head. A single grain makes about 20,000 particles of flour.

Go explore...

If you added up all the house numbers from your street, what would the total be?

Picture this...

Estimate how many grains of wheat would be in this field.
