

Focus on... Computing

#250

On this day...

In November 2005, Microsoft's Xbox 360 is released in the United States and Canada.

Did you know...

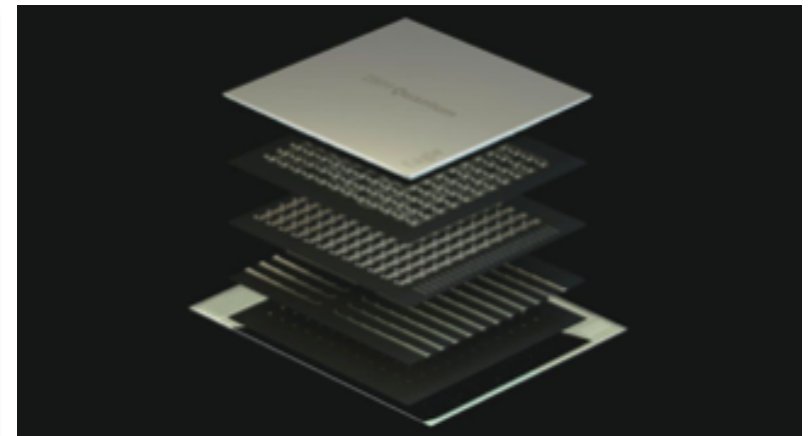

IBM has unveiled an advanced "quantum" processor that is part of an effort to build super-fast computers. The new chip has 127 "qubits", twice as many as the previous IBM processor.

Go explore...

There are lots of interactive games on how to get to school safely at the Think website here...
https://www.think.gov.uk/resource_format/online/
Have a go and have fun!

Picture this...
