

Focus on... Design and Technology

#251

On this day...

In 1889, the jukebox, which is a machine that automatically plays a selected musical, was presented for the first time at a Palais Royale, Saloon in San Francisco, California, US.

Did you know...

Carrots were available in three colours, none of them being orange. In the 17th century Dutch farmers started breeding a new hybrid carrot that mixed the traditional colours to create the orange carrot.

Go explore...

What are the advantages and disadvantages of using CAD (Computer-aided design) to design a product?

Picture this...

Cloth can be made from natural fibres or man-made ones. Examples of natural fibres are cotton, wool, and silk. Examples of man-made fibres are nylon, rayon, and polyester.
