ART, P.E. AND SCIENCE

Year 3 & Life in POMPEII and Year 4's Perspective Art Work

Year 3's imagined what life was like before Mt Vesuvius erupted and what it would have been like during the eruption.

Year 4 focused on how to integrate perspective into their art work using their favourite places. And let's not forget the exercising!!!

ART, P.E. AND SCIENCE

Year 5's express feelings through Art & Learn Science through flowers And Year 6's Art

Year 5's focused on expressing feelings through their art.

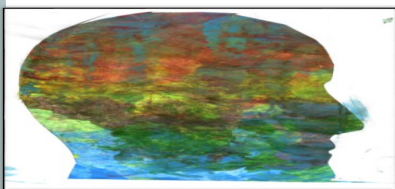

My painting shows sadness/loneliness as I have drawn a bright sky with a small cliff on which a small boy is standing on. Looking at the moon. I used Crayons, paints and markers to get my final product.

In this art lesson my picture was about a happy scene. I found that when I was drawing my girl it was a bit harder than the others. The activity made me feel happy because we are doing something fun and expressing our feelings. I found that when I was doing the colours in the top it was really easy.

A dove is like a bird. I was feeling peaceful, so I decided to do a flowery Dove. I found some flowers in the closed golf club. Then we stuck the flowers down now we are finished. I did an objective type of abstract, I found it easy to do the mask layering with colours of different emotions I feel. Then out of all mixed emotion I feel like peace like the dove.

Male & Female Flowers

Flowers are the reproductive organs of a plant that gradually develop into fruits. A flower may be of two types – perfect flowers and imperfect flowers. Perfect flowers have both male and female reproductive parts.
