- Avanti is a special and unique school that teach beautiful values. These underpin the excellent extra-curricular activities that the school provides over and above delivering the national curriculum, such as yoga, meditation and music lessons. The vegetarian Indian lunches are enjoyed as are the celebrations of Indian festivals such as Holi and Diwali
- The prospect of teaching the ethos and values has been very good. The school gives equal importance to co-curricular activities thereby encouraging its pupils overall development

- The way the school always try to respond quickly to concerns
- Well done Avanti, a school where bullying is not accepted and where children feel safe. I am happy with the way staff deal quickly with incidents
- Starting their day with a prayer to show respect and gratitude towards not only supreme lord but towards all human being, mother nature and all other living creatures. In our opinion, along with teaching all academic skills, Avanti School is teaching empathy, respect and patience to all students which is becoming rare skill these days. We strongly believe that helping children develop these skills will not only help building a strong foundation for them throughout their life but also to the whole country and make world to be more peaceful and better to live
