

Science Investigation Planner

What are you going to investigate?	How are you going to investigate this?	What equipment will you need?
How will you make this investigation fair?	How will you make the investigation safe?	What do you think you will find out?

Science Investigation Planner

What were the results of your investigation?	How can you represent these results so others can easily understand them?
What conclusion can you draw?	What evidence do you have to support your conclusion?
