

Avanti Pupil Journey

The Avanti Curriculum details the substance of our unique, rich, and holistic curriculum offer, rooted in our collective purpose as a trust: to help each person become a well-rounded human being through intellectual, moral, and spiritual growth, and so to make the world a better place. At a more granular level, school curricular across the Avanti Trust aligns to seven core curriculum principles which are both led by the trust ethos and evidence-informed 'best bets'. This ensures that the curriculum delivers on our mission as a trust but also on ensuring that pupils have embedded learning over time (see above).
