Diary Dates

Monday 10th May

All proceeds raised for the India Covid Appeal

Friday 21st May

INSET Day - School closed

Monday 31st May to Friday 4th June

May half-term

Dear Parents and Carers,

I hope you and your families are all well.

I wanted to take the opportunity to say a huge thank you for all your help and support with the fantastic and generous donations towards the St Vincent Volcano Disaster and our India Covid 'India Breathe' Campaign. I am so proud of the effort that children their families and staff have made! We have raised a staggering **£188.68** for our international dress up day which is just amazing! This is separate to monies raised for our readathon due in on Monday 10th May 2021. We will add all readathon money once it's counted and inform you of the total sum raised. All proceeds will go directly to our 'Help India Breathe' campaign:

<https://www.justgiving.com/campaign/indiabreathe>

We will continue to collect toiletries and other essential goods for those suffering on the island of St Vincent next week so please keep those donations coming!

I hope you have a pleasant and safe weekend.

Mrs Pandya
Principal

Attendance and Punctuality

Our whole school attendance has been **98.8%** this week which is again, excellent! The number of children who have been late this week has been **9%**

Please ensure that your children arrive to school on time so they don't miss out on any learning.

Readathon

Some KAPSC parents have already donated the money raised from the Readathon directly to the Just Giving website (which is completely fine). If you have, please can you let us know your child's name and the amount raised so we can award a certificate to each child for their effort and so we can calculate a total that KAPSC as a school has raised.

Help Wanted!

As the Covid restrictions start to ease and once we get to the final stage of the Government's final step of this on 21st June 2021 we would like to encourage more parent volunteers to come in and help with things like:

- Reading,
- Helping with displays,
- Sorting resources
- Planting and gardening

Please express your interest by emailing the school office or speaking to myself or Mrs Vyas in the office to find out more.

This week's learning at KAPSC...

Year 1

In English we started reading a new book 'Stanley's stick' Children became a detective and try to find what Stanley is doing. In Maths we have been learning to add equal groups and to share a total equally between a set number of groups

Reception

Reception have had a fascinating week learning about Healthy Lifestyles and Healthy Eating. The children thoroughly enjoyed taking part in their Yoga and PE lessons on Wednesday and Coach Rory was very impressed by their improvement in their skills and resilience to try new sporting activities.

Year 2

This week, we read the story of 'Oliver's Vegetables'. The children had to sort different types of food in 'healthy' and 'unhealthy' groups and differentiate between 'fruit' and 'vegetables'. In English, they recalled the different events that happened over a week from the story and made shopping lists. In Maths, we have been learning about addition. The children used different resources to add totals together and we enjoyed using our Maths skills to complete some ICT additions sums on the interactive whiteboard. The week ended with the class dressing up to support the 'Help India Breath Appeal.'

This week in Year two we have started writing our own version of George's Marvellous medicine. The children had to come up with a different name for the main character, a different setting as well as a different side character. In Design and Technology we created our own salad and tasted it. We finished our topic around Money by playing some fun games and learning how to give change using different coins.

Year 4

This week year 4 have continued their learning on Shakespeare's 'Macbeth' This week we focused on the character development of Macbeth and Lady Macbeth and the underlying theme of 'Ambition'. There were some interesting discussions on what you would do to achieve your ambition (which linked very nicely to our History topic of Crime and Punishment). In History we learnt about the 18th century and the introduction of 'The Bloody Code'. We learnt how this was a deterrent for crime and studied the statistics of crime (linking to our Maths topic) and also explored the notorious highwayman Dick Turpin.

In Maths we have continued learning about statistics and have begun to analyse charts and graphs and answer in depth questions around data. In Science we continue learning about Sound and are still hoping there are some parents who may be audiologists or medical professionals and talk to us about how sound is processed and received!

Year 3

In Year 3 this week, we have started learning something new in Maths: ANGLES AND TURNS! We have made our own right-angle checkers and have gone all around the school to look for right, acute and obtuse angles. In English, we have finished writing our own poems on dinosaurs and we have practised reading them out loud.

Our KAPSC Cultural Dress-up day

We raised: £188.68!
