

6th March 2020

Dear Parents and Carers,

In the past few hours the school has been made aware that a member of the temple congregation has sadly tested positive for COVID-19 and I wanted to communicate this to you as quickly as possible. The individual concerned has not recently been to the temple however other congregation members have been in contact with this person. As such, the school has taken advice from Public Health England and Harrow Public Health and has continued to follow their guidance.

Once again I wish to highlight the need for increased vigilance of hygiene and awareness of potential symptoms. Please utilise the links below to gain a full and detailed overview from NHS England and Public Health England.

- <https://www.gov.uk/government/publications/guidance-to-educational-settings-about-covid-19>
- <https://www.gov.uk/coronavirus>
- <https://www.gov.uk/guidance/travel-advice-novel-coronavirus>

As per our previous communications, please continue to notify the school if you have visited the areas internationally identified by Public Health England. This includes visiting the school and ensuring any declarations are made to the relevant members of staff.

At this stage there is no reason to expect that our school will have to close, though you will be aware that other schools have been subject to closure as part of the counter-measures to contain the spread of the virus.

We are grateful for your continued support in this complex and evolving situation. We will continue to update you as and if the requirements or advice changes and we will continue to follow government advice.

Yours sincerely

Mrs Bindu Rai
Principal
