

# **PE and Sports Premium Report for Primary Schools**

**Krishna Avanti Primary School, Leicester**

**October 2019**

## **School's PE and Sport Strategy**

*We strive to help all children lead a fulfilling lifestyle. PE and sport is vital as we help all children to be fit and healthy; able to take a full and active part in life; and develop their skills of communication, teamwork, resilience and collaboration. We want children to have a wide network of friends and be able to take part in new ventures without hesitation. Part of the strategy involves up-skilling our teachers to have both the confidence and competence to teach physical education. By providing excellent provision of physical education and sport our children will have increased self-esteem and confidence and recognise that their skills and talents are something to be celebrated - all children have something that they can truly celebrate. This will lead into the children being more confident in areas they were less confident in and have the resilience and determination to have a go and succeed. By increasing the number of opportunities for children they will learn and further improve their academic achievements. A wide range of activities will be offered so that all children have an opportunity to find or develop further, something that they can enjoy and can develop in.*

## Planned provision for 2019 to 2020

The total amount received by the school for Sports Funding is: £19,600.00
